### SIMOVA | Present

- **Position:** Full Stack Developer (Back-end: PHP / Front-end: Vue.js) | Aug/2023 to Present
  - Developed a PDF reporting internal lib in PHP using FPDF as base, allowing the generation of complex documents from client data.
  - Developed a Vue.js feature within the company's system that allows users to log their activities via web, replicating functionality previously available only in the mobile app — a solution created to meet client needs in Argentina, where mobile devices are restricted on-site.
- **Position:** Java Back-End Intern | Oct/2022 to Jul/2023
  - Worked on legacy Java system maintenance to support clients not yet migrated to the PHP version.

- Optimized the data query layer by removing ORM overhead and simplifying JOIN operations through lighter subqueries..
- Upgraded the system from Java 8 to Java 14, implemented records in the REST API, and refactored architecture using dependency inversion and use cases for better maintainability.

#### **MODERNA MANUTENÇÃO PREDIAL | Jan/2021 - Jul/2022**

- **Position:** Co-Founder & Commercial Director
  - Led commercial strategies, client negotiations, and contract closing.
  - Participated in project coordination and on-site leadership when needed.

#### **UNIJr-Ba – Federation of Junior Enterprises of Bahia | Jan/2017 - Jul/2017**

- **Position:** Federated consultant
  - Provided legal and fiscal support to affiliated junior enterprises.
  - Delivered a 2-day marketing training at Energize Jr (UNIVASF), contributing to a 37% increase in closed contracts over the following year.

#### **ENGETOP – Civil Engineering Junior Enterprise (UFBA) |**

Set/2016 - Jul/2017

- **Position:** Management Director
  - Responsible for managing internal processes and conducting semiannual strategic planning.
  - Led the development of a 3-year business plan including goals, financial projections, and strategic direction.
